2015 GREENHOUSE GAS EMISSIONS SUMMARY

Factories

Target:
annual reduction in greenhouse
gas emissions per product

Owned & Operated Factories: GHG Emissions per Product

- Carbon intensity per product shipped from owned & operated factories increased 5% compared to the previous year.

Summary

Reduction in Scope 1&2 GHG Emissions from 2007 Baseline

Noteworthy Projects in 2015:

- Two of our largest distribution centers installed energy efficient lighting and one switched roof membranes to a white color, decreasing demand for air conditioning.
- One of our plants in Turkey closed, which decreased our energy consumption overall.
