

LEVI STRAUSS & CO.

Levi Strauss & Company is partnering with [Tradeshift](#) to make doing business with us easier for suppliers. Beginning in January 2020 with a pilot roll-out, and proceeding in phases in the months to come, we are transitioning to Tradeshift as our platform of choice for indirect purchasing.

Suppliers will be contacted directly by Tradeshift to facilitate transition to our new model, and we strongly encourage all suppliers to activate their accounts with Tradeshift when contacted. There is no cost to participate, and once fully on-boarded to the Tradeshift network, suppliers will be able to:

- Submit invoices via the portal or via direct integration with the network
- View live status for trading documents such as invoices and good receipts
- Collaborate in real-time on trading documents with LS&Co.
- Self-manage their supplier profiles

Suppliers may also be invited to submit catalogs for LS&Co. users to select from, making it easier for our users to buy from them, and to participate in dynamic discounting programs.

We are excited about the benefits this new platform will bring to both our suppliers and Levi Strauss as we continue working together.

If you have additional questions, please email mbxTradeShiftInfo@levi.com. While we may have sent some communications to you in local language, we ask that all enquiries sent to this address are in English.
